

**2017 FMCS Symposium – Cleveland, Ohio March 26 – 30, 2017**  
 Ecosystems, Engineering, Valuation, and Practice – The Roles of Mollusks in a Changing Environment

The FMCS is a not-for-profit, dedicated to the advocacy and conservation science of freshwater mollusk resources. The FMCS workshop provides a great opportunity to network and build relationships with conservation professionals from state and federal government, industry, and conservation organizations. The Society has a membership of 500, and 250 members generally attend the biennial symposiums. These professionals are constantly working to conserve freshwater mollusks, and we need your help. We are requesting monetary **SPONSORSHIP** to help cover the costs of the symposium facilities.
